

School District No. 67 (Okanagan Skaha)
PRESENTATIONS AT THE BOARD MEETING
March 10, 2008

Penticton Secondary School

Vice Principal Trevor Robinson and Leadership students from Penticton Secondary School attended the meeting and spoke about global awareness and citizenship activities in which the students were involved. PSS students have raised and donated this year approximately \$14,000 to local charities and around the world. Grade 12 student Julia Cannings highlighted the recent talent show held as part of Education Month which raised \$1,400 for War Child Canada. Grade 9 Leadership students, Rylan Angell, Jordan Findlay, and Matt Gowe, highlighted their involvement with the Youth Philanthropy Initiative, a program that provides a \$5,000 grant to a local charity working in the social services sector. For the third year, groups of students met with, learned about, and presented proposals on behalf of local charities. This year, Dragonfly Pond was selected to receive the \$5,000 grant from the Toskan Casale Foundation, however, the students were the real beneficiaries as they learned about, and in some cases participated in, the work these organizations do within our community.
