

MENS ZORREL DRI-BALANCE T-SHIRT

DRI-BALANCE CLOTHING IS COMPOSED OF A MICRO FIBRE POLYESTER SHELL ON THE INSIDE OF THE GARMENT AND A TIGHT WEAVE COTTON SHELL ON THE OUTSIDE OF THE GARMENT. THE POLYESTER LAYER DOES NOT RETAIN ODOR AND WILL WICK MOISTURE AWAY FROM THE WEARERS BODY, KEEPING THEM COOL AND DRY UNDER STRENUOUS ACTIVITY EVEN IN HOT WEATHER.

THE COTTON LAYER WILL NOT SNAG AND IS AN EXCELLENT CANVAS FOR SCREEN PRINTED DESIGNS.

THE COMBINATION PROVIDES THE PRIMARY ADVANTAGES OF EACH FABRIC WITHOUT THE DRAWBACKS OF EITHER – YOU WILL NOT WANT TO WEAR ANOTHER SHIRT AFTER PUTTING ON A ZORREL DRI-BALANCE T-SHIRT.

S-XXL

FEATURES A 2 COLOUR SCREEN PRINTED LOGO ON THE SIDE OF THE T-SHIRT

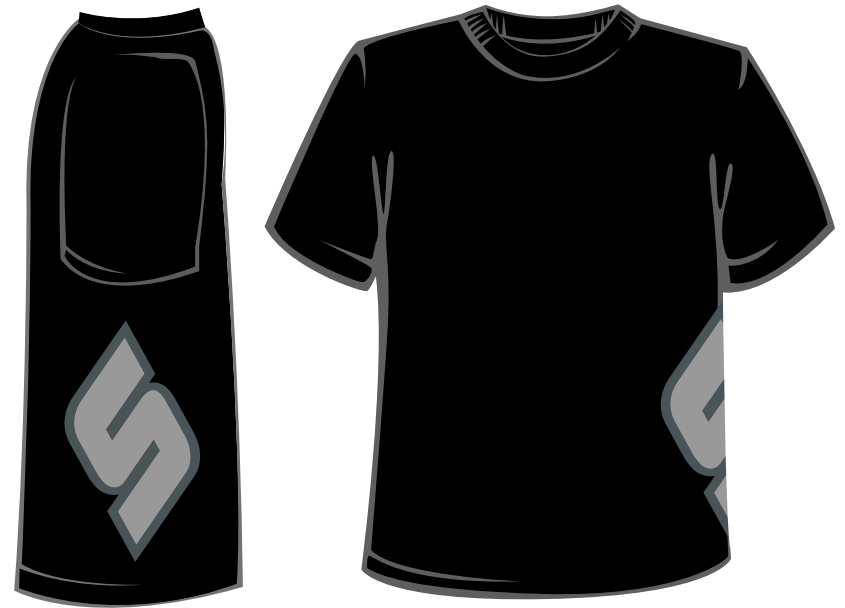

NAVY ZORREL DRI-BALANCE T-SHIRT

\$20

BLACK ZORREL DRI-BALANCE T-SHIRT

\$20

These are the shirts that other T-shirts want to be when they grow up. These shirts will make you 34% more attractive and will increase your bodies production of disease killing anti-bodies. People wearing these shirts have been known to look directly at the sun or run while carrying scissors (with their shoes untied) with no adverse effects. 112% of people surveyed claimed to feel twice as swell while wearing these shirts. These shirts prevent balding and arthritis and instantly degrade into baby animals when thrown in a landfill.
