REGULATIONS AND PROCEDURES

POLICY #760 Disposal of Land or Improvements

1. Only in exceptional circumstances should a board consider permanently disposing of school property. Without the approval of the Minister of Education, a board may only sell land or buildings to another board (including the Conseil scolaire francophone) or independent school for educational purposes. A board may lease property for under 10 years according to its own policies and procedures to an entity for an alternative community use.

The Minister may approve a sale or lease of 10 years or more to an entity for use other than alternative community use. When such exceptional circumstances occur, a board must confirm that the board will not require the land or improvements for future educational or community purposes.

2. School property disposed of to an entity for use other than an educational or alternative community use must be sold through public tender or other competitive bidding process to ensure fair public access and market value is obtained.
3. Disposal of land includes the sale or the granting of a registered easement or right-of-way on the land. Prior to the disposal of land or improvement under Section 96(3) of the School Act, a bylaw describing the disposal will be prepared. The disposal must provide for:
 - a) Consideration of the future educational needs of the school district,
 - b) Disposition of land or improvements through a public process, and
 - c) Disposition of land or improvements at fair market value.

“Fair market value” for the purpose of this policy means the amount, price, consideration or rent that would be obtained by a board of education in an arm’s length transaction on the open market between willing parties acting in good faith.

School property disposed of to another board (including the Conseil scolaire francophone) or independent school for educational purposes or local government or community organization for alternative community use may be sold at less than fair market value.

For grants of leases, rights-of-way, easements, and other interests in property, the Board of Education will consider the impact of market value of the subject site.
