School District/Independent School Authority Name: Okanagan Skaha	School District 67
Developed by: Shaune Gowe (previous version by Pam Butters) (Some objectives, resources and ideas taken from previous course descriptions offered by District 28 (Quesnel), District 20 (Kootenay Columbia) and District 36 (Surrey))	Date Developed: March 8, 2018
School Name: Penticton Secondary	Principal's Name: Chris Van Bergeyk
Superintendent Approval Date (for School Districts only):	Superintendent Signature (for School Districts only):
Board/Authority Approval Date:	Board/Authority Chair Signature:
Course Name: Principles of Social Interactions	Grade Level of Course: 10
Number of Course Credits: 2 or 4	Number of Hours of Instruction: 60 or 120

Board/Authority Prerequisite(s):

Students may be referred by case manager, counselor, School Based Team, or parent.

PSI learning outcomes rating scale as a pre-assessment

Special Training, Facilities or Equipment Required:

- Resource Teacher and Support Staff with specialized training in Autism Spectrum Disorder and other developmental disabilities including social skill deficits and behavior disorders.
- Knowledge of Michelle Garcia Winner's concepts/strategies in teaching "Social Thinking."
- Digital Camera with video capacity.
- Laptop or PC with DVD player
- Projector
- Internet Access (high speed and wireless preferred).
- Window's movie maker and Media Player, or similar program.
- Social skills pre-assessment (PSI rating scale).

Course Synopsis:

Principles of Social Interactions addresses skills and promotes growth in the areas of self-determination, self-awareness, self-advocacy, emotional awareness and regulation, social interaction and communication (verbal and non-verbal), social cognition, conflict resolution, bullying and peer pressure.

Goals and Rationale:

Social competency is a combination of fundamental skills required for independence and success in young adults. Students with developmental disabilities (including autism) and behavioral difficulties often lack the necessary social skills to live up to their fullest potential.

This course provides the opportunity for students with deficits in the areas identified in the learning outcomes to develop their skills in a safe, structured and supportive environment with some of their peers.

Aboriginal Worldviews and Perspectives:

This course will include an approach that utilizes First Peoples Principles of Learning in its view of student growth. In particular, it will focus on:

- "Learning involves recognizing the consequences of one's actions."
- "Learning involves generational roles and responsibilities."
- "Learning involves patience and time."
- "Learning is holistic, reflexive, reflective, experiential and relational (focused on connectedness, on reciprocal relationships, and a sense of place.)"
- "Learning involves exploration of one's identity." (from www.FNESC.ca)

BIG IDEAS

<p>Self-determination first requires a development of self-awareness.</p>	<p>Self-regulation requires awareness of emotions and how to manage them.</p>	<p>Effective communication involves verbal and non-verbal skills.</p>	<p>Self-advocacy involves knowing when and how to ask for help.</p>	<p>Different social skills are required in different settings.</p>

- Small group work
- Volunteer opportunities to practice skills
- Discussion
- Novel studies to assess character traits/ skills
- Fiction and non-fiction short stories
- Role playing
- Games
- Video modeling
- Peer/ teacher modeling
- Peer tutor support
- Social autopsies
- Video self-modeling
- *Social Stories*[™]
- *Comic Strip conversations*[™]

- Graphic organizers
- Student handouts
- Interviews
- Self-analysis projects
- Informal observation
- ABC functional behavior charting

Recommended Assessment Components: Ensure alignment with the [Principles of Quality Assessment](#)

Assessment Component:

Progress towards IEP goals, as reflected through the following methods:

- Self-reflection and evaluation
- Peer evaluation
- Group discussion and active involvement
- Data collection (PSC rating scale inventory pre and post)
- Peer interviews
- Course activities
- Weekly journals
- Student handouts
- Tests and quizzes
- Cumulative projects
- Power point projects- self advocacy/ self-awareness
- Rubrics (created collaboratively between students and teacher)
